- Wall, ceiling or cabinet fixed
- Compatible with flat ducting or aluminium flexible ducting
- All models are provided with a charcoal filter and washable grease filter as standard
- All models are fitted with mains lead, built-in lighting and choice of 3 speeds

Kitchen Ventilation

Vent-Axia offers a range of cooker hoods for the removal of cooking odours and steam at source in the domestic kitchen. Each model is designed to provide the extraction levels necessary to comply with Building Regulation requirements for kitchens with ducted outlets plus models that provide higher outputs for busier kitchens.

A choice of styles is available to include wall, or cabinet fixed models to provide integrated ventilation in any modular fitted kitchen from a terraced galley kitchen to the most extensive layouts. Models are available that can re-circulate or extract with the use of ducting.

The Building Regulations for the mechanical ventilation of kitchens with open-able windows in dwellings require that extractor hoods should be capable of extracting at a rate of 30 l/s (108m³/h).

When used with ducting, the resistance of the entire system should be considered so that the required performance is achieved. Extractor hoods should not be sited where ambient temperatures are likely to exceed +50°C.

Models

Genova

A white cooker hood with 'flip front' glass visor and rear spigot design to be wall-mounted or mounted beneath a top cabinet. Offering three speeds with extract rates of 100/160/220m³/h.

Model **Stock Ref**
Genova **120801**

Rimini/Milano/Roma

The Rimini (500mm width), Milano (600mm width) and Roma (900mm width) are stainless steel chimney cooker hoods with an extending chimney to fit varying ceiling heights. Offering three speeds with extract rates of 340/420/460m³/h.

Model **Stock Ref**
Rimini **427166**
Milano **120841**
Roma **120851**

Dimensions (mm)

Model	W	D	H
Genova	600	470	150
Napoli	600	275	400
Rimini	500	500	1115
Milano	600	500	1115
Roma	900	500	1115

Extractor hoods are not suitable for use above an eye level grill. Must be mounted between 760mm and 900mm above the hob.
